HOW TO READ YOUR WATER BILL - KEY ITEMS

1. **Service Address** – This is the address/location of the meter.
2. **Account Number** – This identifies you and your property address in our billing system. Please use this number whenever you contact us with questions about your account.
3. **Billing Date** – This is the date the bill was issued.
4. **Late Date** – This is the date that your payment must be received by Georgetown Divide Public Utility District in order to avoid late fees and interest charges. All bills are due and payable upon receipt.
5. **Total Amount Due** – This is the amount due by the due date. It includes the amount of your current bill and any unpaid previous bills, if applicable.
6. **Meter Read (in Cubic Feet)** – This are the water usage readings from your meter.
Prior Water Read– This is the meter reading taken from your previous bill.
Current Water Read – This is the reading taken at the end of this billing period.
7. **Consumption** – This is the amount of water used
Usage this Period – This is the usage for this bill.
Usage one year ago – This is the usage for the same period last year
8. **Charges** – This details the charges on your bill
Base Charge – This is a flat rate that is charged based upon the size of your meter.
Water Use Charge – This is the charge for the water you actually consume.
WTP Supplemental Fee – This is a flat rate that is charged to pay for the State Revolving Fund Loan required to fund replacement of the existing water treatment plant in Cool.
9. **Usage Rate** – This is the amount charged per cubic foot of water consumed.
